

HERCULES CARPARKING SYSTEMS

DEMETER ABOVE

THE ABOVE GROUND DOUBLE STACKER

The Hercules Above Ground Double Stacker is a dependent system.

The Hercules Double Stacker Series is the ultimate car parking solution to accommodate two cars in the one carpark space above ground.

The sleek design and strong, galvanised construction guarantee safety, durability and the utmost protection of both the cars and drivers/passengers. The simplicity of operation, and it's economic and practical design make the Hercules Double Stacker Series the unchallenged leader in the field of safe car parking practices.

ADVANTAGES

- **Ultra Low Noise:** Whether the car is being lifted up or down, the machine makes very little noise due to the buffering of the hydraulic cylinders
- **Safe and Reliable:** Hydraulic overloading protection. Electric key switch for security and safety. Manual lock release available in the case of an electricity failure
- **Fast and Easy Installation:** As part of the structure is pre-installed during manufacture, this lessens the installation work
- **Simple Operation:** To operate the equipment, all that needs to be turned on is the key switch on the control panel
- **Convenient getting in and out of the car**
- **Suitable for both:** Home Use and Public Use
