

HERCULES CARPARKING SYSTEMS

EXPANDERPARK

THE LIFT & SLIDE CARPARKING SYSTEM

The Hercules Expanderpark Series is the ultimate car parking solution that has a 100% flexible design and an extremely high level of reliability.

This system has the most manoeuvrability of any lift and slide car stacker on the market. The sleek design and strong, galvanised construction guarantee safety, durability and the utmost protection of both the cars and drivers/passengers.

The simplicity of operation, and its economic and practical design make the

Hercules ExpanderPark series the unchallenged leader in the field of safe car parking practices.

The Hercules ExpanderPark Above & Below Ground versions available are;

- ExpanderPark -1 + 1 - 1 level below and ground level,
- ExpanderPark -1 + 2 - 1 level below, ground level, 1 level above
- ExpanderPark -2 + 1 - 2 levels below, ground level, 1 level above
- ExpanderPark -2 + 2 - 2 levels below, ground level, 2 levels above

FLEXIBLE DESIGN

100% flexible design. Ability to be adapted to any pit length, width, depth or height.

STRUCTURAL INTEGRITY

Extremely solid structural integrity. With industrial mechanical anti-drop locks.

DRAINING SYSTEM

Unique draining system for any liquid which falls onto the platforms, which takes the liquid to the rear of the platform and onto the extreme outer edges

ANTI-SLIP

Anti-slip corrugated deck, protects both the vehicle and drivers from possible slip/damage.

FEATURES

MANOEUVRABILITY

Side panels on all platforms rebated at the front to allow 15% more manoeuvrability when parking/departing than other similar machines.

PROTECTION

Vehicles parked below are fully protected

CONTROL BOX

Touch screen. Cars can be called via 2 digit, 4 digit, 8 digit codes, individual swipe cards or remote controls.

QUIET

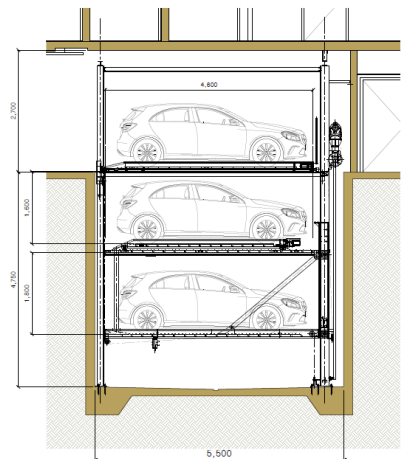

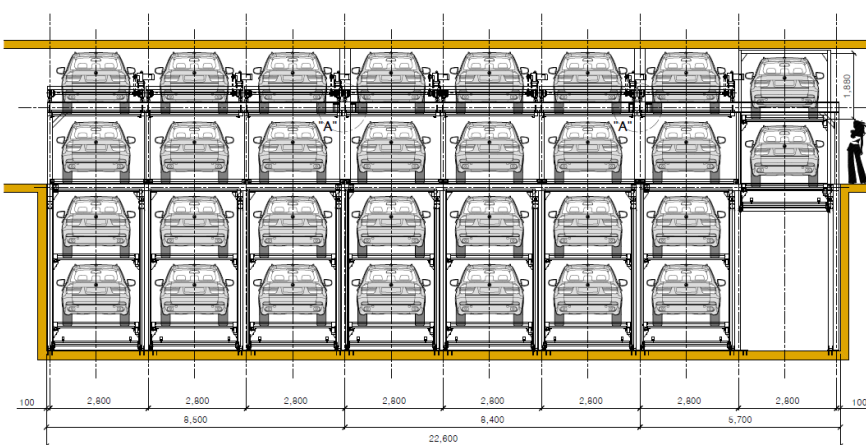

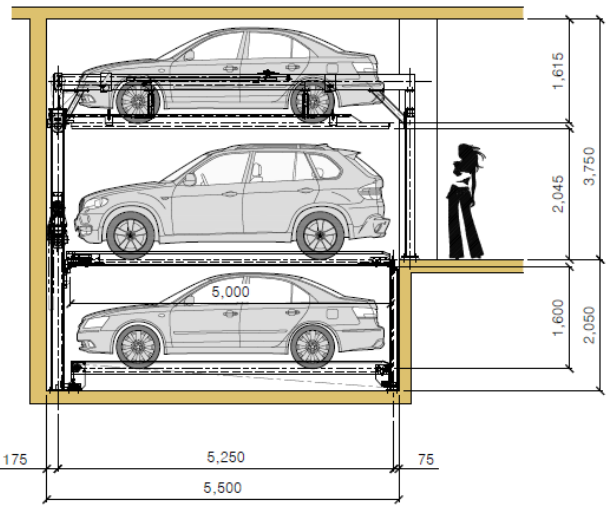

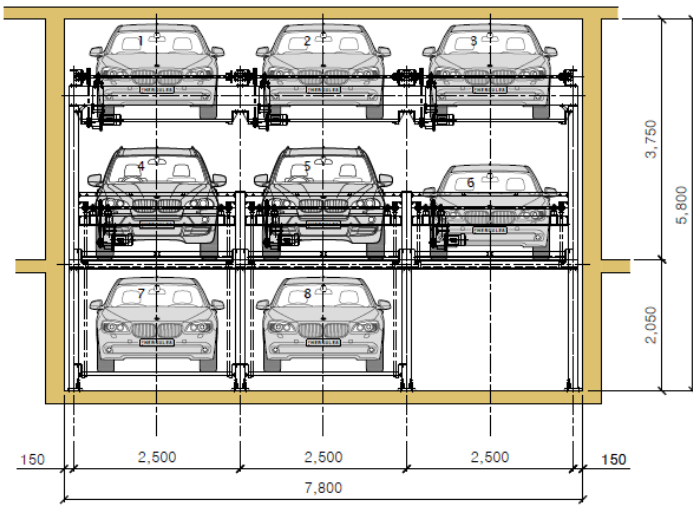

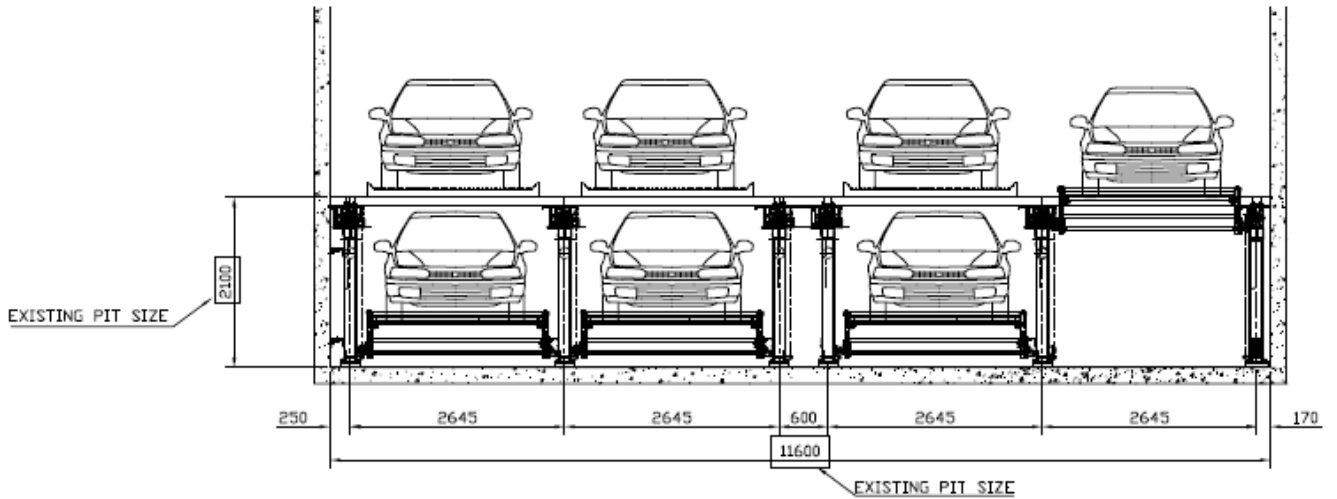

Very quiet in operation.
